

19 August 2020 Meeting Minutes

The August meeting was held on the 19th with 15 members present. The club now has 38 paid members with the prospect of another one shortly.

The club is in good shape financially with a balance of \$3,081.73 after expenses. Contributing factors were that we didn't roll the field nor did we have a Spring Fun Fly. As mentioned before we will roll the field next spring.

The September Club Meeting will be on Wednesday the 23rd. This also allows us to further discuss the Fun Fly just a few days prior and ensure everything is in good shape. We will also cover any other topics or concerns that pertain to the club.

We are having our Fun Fly on Saturday the 26th of Sept. The event kicks off at 9.00am with the main focus of everyone having a good time. Friends and Family are welcomed and encouraged to attend. Friends or Family that want to join the fun and fly certainly can just as long as they have AMA insurance. Rain date is the 27th.

Mower Shed – It was decided that we are going to go with building a wood shed approximately 8 by 12 feet in size and costing around \$1,300.00. We will also be looking at some kit's that supply the material to build one. Volunteers will be welcome during final assembly on location. More information will be forthcoming on this one such as the final decision and build dates.

There was a fair amount of discussion during the meeting over different skill sets that our members possess and how those skills can be used to help those that can use some assistance in these different areas. It was decided that we could put out a voluntary list with contact information so that others can contact them for any assistance as needed. Scott Shoemaker has put together an Exeter RC Eagles Instructor Resource Sheet that volunteers can add their skills and contact information and it can be very helpful to others. See Link Below.

We discussed promoting the club and possibly even getting a few more members at the same time. Ideas were floated around like getting Hobby Shops to help get the word out. Another idea involves working with a You Tuber that has a channel called Oval RC and getting some promotion from his channel. I particularly like the one called PARAGLIDER NIGHTMARE it was filmed at our field. See Link Below.

Club Website - Our website needs some updating and we are looking into it. I would also like to develop a pass word required member's only page. This would include links to things like the Field Mowing Tracking Sheet and the Exeter RC Eagles Instructor Resource Sheet. This way members personal information isn't made available to everyone who visits the Web Site.
