Meeting - The Oct Meeting was held on the 15th of October with 8 members present.

Membership – Currently at 47 paid members.

Next Meeting – To be announced for next Flying Season.

Treasury Report – Waiting for October numbers to come in. Will post updated version of these minutes on the Web Site when they get updated. You can check the Sept meeting minutes on Web Site if you want the most up to date information we currently have.

Field Complaints – We had two complaints recently and will be setting up a meeting with a representative for Padre Pio. These complaints are from Jakes Flea Market, and we know we have not overflowed RT 100. We are certainly not flying over Jakes Flea Market. We also had one of the executives for Padre Pio who stated he saw us flying over buildings at the Padre Pio Center. This one is the most concerning of the two for us.

New Flying Guidelines - Keep planes to 50 CC or less before 1:00pm until Jake's closes for the season. We still want to be vigilant in watching where we fly and stay within the flying boundaries. Do not fly over the grounds of the Padre Pio Center. We are still trying to set up a meeting with Padre to try and smooth things out. Please take another look at the picture at the bottom that outlines the boundaries. If everyone keeps on top of these guidelines than we should be in good shape for now.

New Field - We still want everyone to be on the lookout for another possible flying field, even if we have two, that would still be great.

Positive Feedback - It would also be helpful if any visitors to the flying field that are spectating and enjoying watching us to ask them if to email Padre and let them know how much they liked watching us fly. We would like to get more positive feedback than negative.

Mowers – No issues holding up well.

Club Merchandise – The Club Hats are still Available for \$14.00. Contact Bob Wingert for availability.

North Penn Model Aviation Club – Tony and Dan have been working with this club, and we would like to host them at our field soon. It's a great opportunity to get some young players into our hobby and to share our expertise with them.

Sincerely
Bob Wingert
Club Secretary
